

INVITATION

Join ST's special networking event!

11th June 2019

Sainte-Victoire Golf Club

[Register now](#)

Fuveau, FRANCE

STMicroelectronics Microcontroller Division - Rousset, France - is pleased to invite you at the "STM32 in the Sky" event, a high altitude stratospheric balloon contest between 4 engineering schools of the south of France:

Ecole Centrale Marseille, Polytech Marseille, Polytech Nice, and Yncréa ISEN Méditerranée

To-be-engineers have been working hard to embed electronics in their respective near-space scientific experimental set-ups, such as STM32 Microcontrollers platforms and wireless LoRa®-based solutions. This event is organized by STMicroelectronics together with our partners:

CNES (French agency for Space policy), PLANETE SCIENCES that supervised the launch and SCS Pole.

After the launch, STMicroelectronics will present products Portfolio & Ecosystems to our business partners:

Come and get latest news and feedback about IoT Come and enjoy this major IoT networking event

AGENDA

Welcoming drink	1:30 p.m.
Stratospheric balloon launch	2:00 p.m.
STMicroelectronics solutions presentation	2:20 p.m.
Professional Networking	3:00 p.m.

We would be grateful if you could [register for this event](#) before 27th of May 2019. Book now, as places are limited!
