SIKUR

Gustavo Krüger Iop ✉ gustavo.iop@sikur.com
in <https://www.linkedin.com/company/sikur/>
tw <https://twitter.com/sikur>
Web site <https://www.sikur.com/>

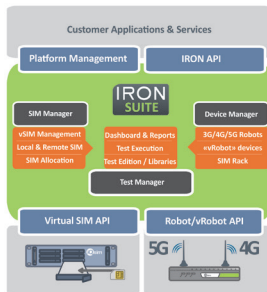

SIKUR is a specialist in protecting sensitive information.

At MWC **SIKUR** will be presenting to the global market the French based technology **SIKUROne**, a secure and flexible smartphone that follows the Zero Trust concept, targeting corporations and governments.

Also, **SIKUR**, will be launching with UCA / IMREDD, **the Security Design Lab**, a large Collaboration Network that disseminates applied tech to ensure privacy and security over IoT devices, H2M & M2M, Mobile Edge Computing & Internet of Everything.

IQSIM

Philippe Bessaguet ✉ bessaguet@iqsim.com
in <https://www.linkedin.com/company/iqsim/>
tw [@iQsim](https://twitter.com/iQsim)
Web site <https://www.iqsim.com/>

iQsim is the leading supplier of Mobile Robots and Virtual SIM card technologies and provides a complete and modular testing solution for mobile networks called "IRON TS".

The solution enables QoS/QoE testing, inbound/outbound roaming testing and more generally any type of test on any mobile network.

IRON TS includes **iQsim** 4G/5G probes for network connectivity, SIM racks for centralized storage of SIM cards and a software Suite offering tests management, administration and reporting capabilities.

Elements of the solution can be purchased or provided as a service, including a turn-key service based on the **iQsim** network of 4G/5G probes deployed worldwide.

networks for all

Georges Edouard THORIN ✉ ge.thorin@lillybelle.eu

in <https://www.linkedin.com/company/lillybelle/>

tw [@LillybelleSARL](https://twitter.com/LillybelleSARL)

Web site <http://www.lillybelle.eu/>

Lillybelle is a team of experts gathered around one common project: to improve communication between people and propose to everyone an optimal access to telecommunications networks.

Lillybelle was established in 2009 and works with 6 key suppliers, 10 senior expert consultants, 2 developers and 20 local partners.

With its partners, its expertises and its core values (*team spirit, respect, seriousness, empathy and solidarity*), **Lillybelle** has quickly become a major player in the quality of service and network optimization markets.

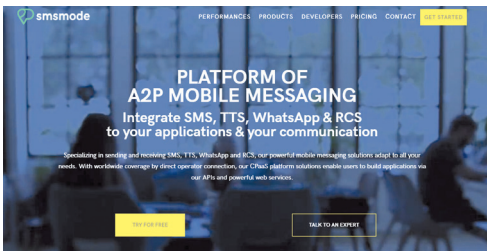

Lillybelle strives to stay ahead by offering carefully selected products, by developing a range of high value-added services based on experts and developing its own solutions.

TELLUS

• tellus •

Koffi Freitas ✉ contact@tellus.fr
in https://www.linkedin.com/company/tellus_2/
f <https://www.facebook.com/Joxko/>
Web site <http://www.tellus.fr/>

Tellus is an international airtime top-up distributor located in France.

In extension **Tellus** is specialized in cash to goods solutions as alternative solutions to remittances.

Different diasporas living in developed countries such as European or North American countries, could therefore help their relatives living in their mother country, for their basic needs like foods, health or communications.

As a fintech, **Tellus** also enables rotative savings and credit solutions.

Tellus is committed to develop services for financial inclusion of unserved and underserved.

POLESCS

POLE SCS is a European leading digital cluster based in Provence Alpes Côte d'Azur, France.

Focused on key technologies in the fields of IoT, Big data&AI, microelectronics and digital security, the cluster gathers 311 players, large corporates, startups, SMEs and Research laboratories and Universities.

Acting as an Innovation accelerator with 324 R&D collaborative projects and 1063 millions euros R&D investments, SCS is dedicated to accelerating the growth of its members on high growth markets such as Industry 4.0, e-health, mobility & smart vehicle, smart cities.
