BUSINESS MISSION TO

The Ecosystem

SILICON SAXONY

Saxony - Europe's heart of microelectronics

- ◆ Saxony has unique concentration of companies and research institutions in the sectors of microelectronics and nanoelectronics, nanotechnology, organic & flexible electronics, energy-efficient systems, next generation communication, and smart systems
- ◆ about 80,000 employees active in microelectronics & ICT
- ◆ areas: development & manufacturing of integrated circuits (ICs), supply of materials and equipment, production and distribution of electronic products, development of software etc.

Every third microchip produced in Europe is made in Saxony

- ◆ big chip manufacturers such as Infineon, GlobalFoundries, Bosch and X-FAB located in Saxony but also research institutions and SMEs active in that field supplying infrastructure, equipment, components, (automation) software & services
